Product weight: 122kg

Pallet weight: 60kg

Pallet dimensions: 300x200x120. Up to 4 units per pallet

The transport cost is the same whether you buy 1 or 4 pcs.

TRANSPORTATION, DELIVERY, ASSEMBLY

Plateau is delivered unassembled – see mounting instructions here and ensure to inform your customer prior to taking the order:

[Get mounting instructions here](#)

Unloading:

1. Is a forklift available on site?

If not you can order this when booking the transport – fee EUR 110

2. If no forklift is available extra time must be calculated to unload the products by hand. This will require minimum 2 people.

3. If no forklift is available Plateau is best unloaded from the side of the truck – make sure to clear this with the transport company.

Assembly of Plateau:

1. Assembly of Plateau will take about 30-45 mins per table and will require a minimum of 2 people.

2. Packaging must be disposed upon assembly – out-sider is not responsible for this.

Note that extra charges will occur if trucks are turned away, exposed to extra waiting time etc.
