

#140

Loop Line

Loop Line is the straight module in the LOOP family. Whether standing alone or paired with Arc or Corner, Loop Line is a canvas for endless design possibilities, customized to complement any outdoor setting. Unleash your creativity with Loop Line and transform your space

#140

Loop Line

Technical data

Material

Rotation moulded polyethylene, 8 mm thick, dyed. Moulded in one piece. UV-resistant, stands up to weather, wear and tear. The material is suitable for granulation and recycling.

Surfaces and friction

The products have a textured/granulated surface due to abrasive blasting of the mold. This process enhances the friction and makes the surface less slippery.

Sustainability

Service life 30 years. 100% recyclable up to 7 times.

Carbon footprint: 130 kg.

LCA approved via Measurable (see documentation under download).

Can also be delivered in 100% recycled, which is Nordic Ecolabelled.

Produced in Denmark.

Authentication

TÜV approved as playground equipment acc. EN1176.

Dimensions

L2000 x H400mm.

Volume: 240L

Assembling & fixation

LOOP Line combines with #137 LOOP Arc to form curving snake forms and triangles. Combined with LOOP Corner #171 it forms rectangles.

The modules are joined with brackets (B4) at either end. Please note that the shape of Loop Line does not permit it to stand alone unfastened. It must be attached to the ground or to a LOOP Arc or LOOP Corner at either end.

Brackets to be ordered separately.

Accessories

Armrests can be placed between the modules.

Material: Stainless steel, glassblown.

Also works as a mounting bracket. Therefore, B4 mounting brackets can be omitted when armrests are used. Dimensions can be found under "dimensions" in download.

Recycled and ecolabelled*

Recycled version is made from 100% recycled polyethylene plastic, of which 85% comes from internal waste and production surplus, while 15% comes from polyethylene bags.

Recycled version is ecolabelled, promoting circular economy and fulfils UN's sustainable development goal no.12 – Responsible consumption and production.

Recycled version is available in anthracite variant, yet colour can vary from order to order.

Maintenance

This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar

Family

Loop Circle, Loop Arc, Loop Line, Loop Circle Light, Loop Cone, Loop Corner, Loop Table, Loop Up
